Project: ARCS Region VI, VII, and VIII Contract No. 68-W9-0032
Subject: Site Screening Inspection of the Mound Street PCB Site, St. Louis, Missouri
(CERCLIS ID No.: MO0000093682).

Dear Ms. Davidson:

Sverdrup Corporation (Sverdrup) is under contract to the United States Environmental Protection Agency (EPA) as a technical and management services contractor in support of the EPA's hazardous waste site assessment activities. In support of this activity, Sverdrup has been assigned the task of conducting a Site Inspection (SI) of the Mound Street PCB Site in St. Louis, Missouri (CERCLIS ID No. MO0000093682).

The Site Inspection (SI) is the second step in the evaluation process used by the EPA to evaluate potentially contaminated sites. The initial step, the Preliminary Assessment (PA), was conducted by the Missouri Department of Natural Resources. The EPA files for this site have been obtained from the Superfund Records Center in Kansas City, Kansas. These files contain minimal information; such as two telephone records, one letter, and the site discovery forms.

Please send copies of the MDNR files for this site, especially a copy of the PA report and supporting documentation via Federal Express, using the enclosed shipping label. Your cooperation is appreciated in providing assistance in completing this activity.

If you have any questions, please feel free to contact me at (913) 663-2108 or Mr. Dave Crawford of the U.S. EPA at (913) 551-7702.

Sincerely,

SVERDRUP CORPORATION, Inc.

Michael W. McCurdy
